Jim Naccarato DC, PhD

Read what doctors who have attended this seminar are saying:

Dr. Naccarato is a tremendous speaker whose anecdotal style and to –the – point – tips held my attention. Whether you have been in practice 2 or 20+ years you will definitely walk away with pertinent, practical knowledge. I enjoyed his enthusiastic, and gimmick free presentation, that re-focuses the doctor on patient centered care.

Genevieve A. Manzo DC

I can't thank you enough for this seminar. I really enjoyed it and will see record numbers in all areas of my practice over the next 4 months. My mind is very enlightened.

Brigham Adams DC

"I have been to lots of practice management seminars. During the classes I pray that the door is shut so that people don't hear what we are being taught. Worst of all... I hope a patient doesn't wander in. This seminar is one I wish we could have the door wide open so all could hear. This seminar is one I wish I could invite my patients to attend so that they can know the truth about how well they are being treated."

Freeman Brackett DC

After multiple programs and plans, NONE compare to the "truth" that your program has. You teach correct principles, backed by statistics and studies, and allow us to govern our growth.

William Wagnon DC

Dr. Naccarato is a dynamic speaker. His lecture is full of ideas--both practical and motivational--that you can put to work immediately. His background in psychology makes his seminars unique.

Heather Dehn DC

Great seminar! Very interesting, fast paced, exciting and informative... I can implement the information immediately. Thank you!

Donna Yerman DC

"I spent close to \$100,000 with various practice management organizations before I found Dr. Naccarato. I wish I had found him a lot sooner. I knew a successful practice had more to do with honesty and integrity than patient pressure, memorized scripts, or a multitude of other gimmicks."

Mark Lafferty DC, PhD
